

Professional Summary

Frontend Developer with 2.5+ years of experience building responsive and user-focused web applications using HTML, CSS, JavaScript, and modern UI frameworks.

Transitioning into React.js development with hands-on experience in API integration, authentication flows, reusable components, and scalable frontend architecture through real-world projects.

Currently focused on building production-ready React applications while expanding into full-stack and cloud technologies.

Education

Bachelor's of computer application

Bhakta kavi narsingh mehta university

2020-2023

Work Experience

Web designer

positiwise infotech Pvt. Ltd.

Nov 2025 - April 2026

- Developed and maintained responsive web interfaces using HTML and CSS
- Translated UI designs into scalable production-ready components
- Ensured cross-browser compatibility and performance optimization

Frontend Developer

TXlabs Pvt. Ltd.

June 2024 - Sep 2025

- Built interactive UI components using modern JavaScript and React (basic usage for internal tools)
- Developed reusable component structures improving development efficiency
- Integrated frontend interfaces with REST APIs
- Optimized DOM handling and improved UI performance
- Worked on dynamic UI features similar to org-chart systems using custom logic

Web designer

Glorywebs Pvt. Ltd.

April 2023 - May 2024

- Developed responsive and production-ready UI using HTML, CSS, and JavaScript
- Collaborated with backend teams to integrate APIs and authentication systems
- Improved website performance, accessibility, and responsiveness across devices
- Fixed UI/UX issues and enhanced overall user experience

Web Development Trainer

Institute of Advance Network Technology (IANT)

Oct 2022 - March 2023

- Conducted training sessions on web development fundamentals including HTML, CSS, JavaScript, and basic React.
- Designed structured course material and practical exercises for students with diverse skill levels.
- Mentored students on frontend best practices, responsive design, and debugging techniques.
- Assisted learners in building small frontend projects and preparing them for entry-level roles.

Achievements

- Conducted training sessions on web development fundamentals including HTML, CSS, JavaScript, and basic React.
- Designed structured course material and practical exercises for students with diverse skill levels.
- Mentored students on frontend best practices, responsive design, and debugging techniques.
- Assisted learners in building small frontend projects and preparing them for entry-level roles.

<> Skills & Expertise

FRONTEND

React.js (Hooks, Context API – Learning & Projects) • JavaScript (ES6+) • HTML5 • Tailwind CSS • CSS3

State management

Redux (Basic) • Context API

Frameworks & Styling

Tailwind CSS • Bootstrap • JQuery

Backend (Basic Understanding)

Node.js • Express.js • REST API Integration

Database

MongoDB

Tools

Git • Github • Vs code • Linux • Postman

Concepts

Component Architecture • API Integration • Responsive Design • Performance Optimization

Soft Skills

Communication • Team Collaboration • Time Management

Projects

Restro Management System (MERN)

In Progress

- Built a multi-role restaurant management system with owner and employee workflows
- Implemented role-based authentication and dynamic dashboards
- Developed REST APIs and integrated frontend with backend
- Designed scalable architecture for managing restaurants and employees
- [Click Here](#) to View The Project

Testy Foods (Food Ordering Web App)

In Progress

- Developed a food ordering platform with authentication and cart system
- Implemented API-based product listing and order flow
- Built admin panel to manage products and orders
- [Click Here](#) to View The Project

Campapulse (Movie Web App)

- Built a movie discovery app using TMDB API
- Implemented search, filtering, and pagination
- Handled dynamic API data and UI rendering
